

INNOVATIVE PLATFORMS

Rechargeable lithium-ion or AGM batteries via solar, solar-hybrid, or shore power allows for reduction or elimination of diesel fuel consumption.

Premium, made-in-the-USA trailers and steel compartments paired with high-quality components.

Knowledgeable team at your service to determine the right options for your company and jobs.

Your Lighting Solution

Lithium-Powered LED Light Towers

THE DOMINIGHT STORY

In 2012, Dominight's founder realized the need for premium products, engineered for optimal performance, and available at a competitive price. The family-owned and -operated company continues to provide clients with reputable products and service.

YOUR BOTTOM LINE

Dominight products save you hundreds of dollars in fuel and operation costs each month. Added benefits include increased safety and reduced emissions.

OUR MISSION

Dominight provides rechargeable light towers and power platforms, made in the USA, with responsibly sourced components. We serve multiple industries with products that improve workplace safety, reduce emissions, and result in substantial savings as compared to diesel light towers.

Specifications subject to change

Dominight's solar light towers are battery powered, LED lighting systems utilizing 100% renewable energy for daily, off-grid recharge.

Benefits of Solar light towers:

- Solar powered battery system
- Zero carbon emissions
- Zero maintenance costs
- Zero noise
- Fully automatic operation
- Quick and easy setup

Solar light towers are ideal for:

- Medium to long term deployment
- Medium light coverage
- Security and communication applications

Example applications:

- Security lighting at warehouses, industrial complexes, campuses, hospitals and special events
- Communication platform for mining and oil and gas
